AUTOMATION & INTEGRATION

One click setup. Pre-built integrations with many of the apps you already have in your tech stack—Shopify, Salesforce, Gladly, Gorgias, Aircall, Zendesk, etc.—makes setup a breeze.

Quick integration + 40% automation = **Massive cost reduction from day 1**

What that really means: **Spend \$1.50 per call instead of \$5+.** And you only pay for the calls we successfully automate.

Our KPIs are perfectly aligned with yours. **See immediate** improvement in AHT, hold time, missed calls, etc.

Better experience for your team, better experience for your customers.
